Narrative: Widespread dense smoke conditions limited helicopter capability, hamper forward scouting, ability to track perimeter growth, and contributed to be a public health concern. Visibility has also limited logistical support via air into the Circle Airport. There are temporary travel restrictions on the Steese Highway between Milepost 147 and 161. Fire behavior included individual tree torching and ground fire with 2-3 foot flame lengths. Direct line was cut at Steese Highway MP 159, east along the 2000 acre extension on the east side of Steese Highway. Direct line was cut going west of Steese Highway MP 159. Line was prepped north of Steese Highway with dozer to Birch Creek. At the Birch Creek Bridge at MP 147 mop up was continued to secure the west side of the Steese Highway. A cabin on the east side of the Steese Highway completed for potential burn out. Crews and back haul demobed off the Little Black Fire. Aerial resources flew for the first time in 5 days. Repeater repair was successful as a result of improved flying conditions.

Crazy Mtn.	Narrative: Widespread dense smoke conditions limited helicopter capability, hamper forward scouting, ability to track perimeter growth, and contributed to a public health concern. Visibility has also limited logistical support via air into the Circle Airport. Fire behavior included individual tree torching and ground fire with 2-3 foot flame lengths. All remaining crews were demobilized and structure protection systems were left in place. Fire personnel estimate the current acreage to be 347,180 acres.
